

Amendments to the Specification

Please replace the paragraph beginning at page 8, line 12, with the following amended paragraph.

Examples of suitable hardenable dental materials that may be used in connection with the present invention include, e.g., the photopolymerizable and chemically polymerizable compositions disclosed for use as hardenable dental materials (restoratives, fillers, etc.) as described in, e.g., U.S. Patent Application No. 10.185,431 (published as US 2004-0005524 A1), filed June 28, 2002 (Oxman et al.), entitled PROCESSES FOR FORMING DENTAL MATERIALS AND DEVICE; as well as U.S. Patents 6,084,004 (Weinmann et al.) and 6,187,836 (Oxman et al.).
